

BLOCK PAIN INSTANTLY

Sensitive teeth are painful and pose a problem for many. Unfortunately, getting rid of the problem has always been a challenge. That is until now, thanks to DentaKote-S.

DentaKote-S is a revolutionary formula that is applied directly to sensitive tooth or teeth. It instantly stops and eliminates painful sensations.

Clinical studies using actual patients have repeatedly demonstrated the effectiveness of DentaKote-S in relieving painful sensations. Each patient experienced immediate and lasting relief. This is true for both young and old patients.

Patients who have had an application of DentaKote-S, are reporting the elimination of the sensitivity lasting for several months.

What is DentaKote-S?

It is a medical-grade polymer that is safe to use in the oral environment. Can be applied effortlessly and quickly to relieve the symptoms of sensitivity and more.

A single application has lasting effects. Reapplication is recommended at your subsequent recall visits.

DentaKOTE  TM
